First name: Zach

Last name: McManus

Organization: Town of Rico

Title: Mayor

Comments: As a small community located in the San Juan national forest, recreation is a big part of what attracts tourists to our town. The completion of the Rico trails network, including the Circle, Ryman and RGS trails, has the potential to enhance our economy by bringing more users to the area. The RGS trail , in particular, has the closest proximity to town and the most manageable grade for use by all ages and ability levels. The Town of Rico strongly supports the Forest Service's efforts with regard to the aforementioned trails.
