Comments: As a long-time summers resident of Forest Lakes, I would like to see many of the roads, trails that were closed many years ago, re-opened to usage by off road vehicles and foot traffic. Specifically on the south side of AZ260.

There is a trail, 260B, (that is an extension of Merzville Road on the north side of AZ260). There is also planned a 260B1 that extends Gunslinger Road out of the sub-division to that 260B1 road. The plan we saw at the FLOA meeting in September showed 260B1 angeling northwest toward the highway. I would like to see that road continuing a a straight line west with Gunslinger to intersect with the 260B road where it turns west toward the Rim.

Also. it would be nice to not have camping permitted within 1/4 mile of the sub-division-- a safety factor from potential fire issues.

Thank you for taking my comments into consideration and I look forward to what will occur....
