Title:

Comments: I believe this is unacceptable. We, "respectable outdoorsman" abide and respect our outdoors are held accountable for bad sportsman's that do not abide to rules. We do not need further rules but need to have current laws enforce to protect our resources. We want and need a corridor to the outdoors and want to protect what brings opportunity to a successful hunt/outdoors experience. We all love the opportunity and want to secure our children's opportunity to enjoy the outdoor's.
