Title:
Comments: Please refer to the 2015 AZ House Bill 2175 referring to federal RS2477 regarding rights of way across public lands. RS2477 is essentially a subpart of the 1866 Mining Laws that guarantee public access to ANY roads existing prior to 1976.

Also with substantial evidence presented of environmental impact and ir concerns I call for a plan of " No Actions" these roads especially the 300 should remain ipen.
