Comments: I am writing to advise you not to make any changes to our Apache-Sitgreaves forest.

I attended the meeting in Show Low and ask you to not make any changes and stick with OPTION 1.

Option 2 is a step towards Option 3 which is, as you know Agenda 21 or Agenda 2030. A UN Agenda.

I highly recommend you clean the forest and stop placing barriers to accessing our lands.

Thank you.
