Last name: Hardman

Organization:

Title:

Comments: I love our forests. In looking at the plans I believe that plan #1 is best meaning no changes. PLEASE Leave our forest the way it is. We do not need beauracrats, NGO's and outsiders trying to limit our usage and enjoyment of our public lands and forests. Humans beings are as much a part of our forests as much as the animals. To limit hunters for elk and take away access is wrong. To limit people who heat thier homes with woodburning stoves in winter by responsible management of our forest lands by the forest service is wrong.

Thanks for your consideration.

Annette Hardman
