First name: Laura

Last name: Wilder

Organization:

Title:

Comments: I am opposed to any actions by any organization, private or governmental, that would harm prairie dogs, ferrets, or any other native species. I am very tired of cattle ranchers determining governmental policy.

I am opposed to ranchers or anyone else being allowed to expand the poisoning of prairie dogs on the Thunder Basin National Grassland and being allowed to away with the current Black-Footed Ferret recovery area.

It is time to put our native wildlife above the for-profit-systems of greedy ranchers.
