First name: Richard
Last name: Cooke
Organization:
Title:
Comments: Food is to me one of the highest priority of this nation, Long Island sound, Chesapeake Bay, Barrier Island and low country of the Carolina's , Inter-coastal of Fl, South Fl , Big Bend of Fl - swamp's drained Pine Trees planted, and the list goes on. Fisheries collapse - Clean renewable resource destroyed or diminished. All relates to up land development. Look at Haiti and Dominican Republic one Island two different ways of development. With this it's even bigger - Tourism $, Fisheries $, Substance for People.
