First name: Jaimee

Last name: Stransky

Organization:

Title:

Comments: I am requesting that you do everything in your power to protect the pristine nature of the Tongass National Forest area. I believe that the preservation of this natural refuge is in the best interest of the many animal species that call it home as well the state of Alaska. With so few natural areas left it should absolutely be a priority to protect those that remain. As a private citizen I can use the power of my voice and the impact of my spending choices to support this request. I will not financially support any organization, state, or recreational entity that damages or changes the protected status of this area. I will not spend any of my families tourism dollars in the state of Alaska.

Thank you
