

Data Submitted (UTC 11): 10/19/2019 8:00:00 AM

First name: Lincoln

Last name: Fong

Organization:

Title:

Comments: Scarring land long designated as a natural refuge to enable pecuniary gain by greedy industries or anyone else amounts an unforgivable and eternal sin. Please do not allow this sin to ever occur that will disrupt the natural beauty gifted by natural forces and Mother Nature to us and future generations. What took millions upon millions of years to form as a gift of beauty and tranquility must not be permitted to be blighted and polluted in a few short years by and for the destructive industrial forces and pecuniary gain interests of the mean spirited conglomerates. Thank you for your attention and the ability to protect our natural lands for future generations.
