Last name: Resendez

Organization:

Title:

Comments: I am writing to urge that Tongass National Forest remain free of development as proposed by the Republican administration of D Trump. The wilderness protected therein IS SERVING THE NATIONAL INTEREST by providing vital \*\*carbon capture,\*\* economic sustainability through tourism and a refuge for species already under tremendous threat by encroaching human presence.

Any proposal to violate this wilderness in trust for the American people should be rejected.

Generations will be watching.

Truly,

S Resendez
