Comments: I'm opposed to the closure of Kephart Run, in the pass 20 years I have used it and haven't seen any maintenance to speak of, also not sure what impact your speaking of for watershed??? I think the Forest Service needs to do a better job posting issue's like this, your sign Notice wasn't even at the entrance where people could clearly see it to respond. Also in the pass 40 years there hasn't been any maintenance to Second Mnt. Long run or Dictum road so you may want to consider working on them and post signage for your ATV trail to keep people off of Long run Road...
