Title:

Comments: The Tongass is the world's largest remaining intact temperate rainforest. It is of value to the global environment. This forest must remain a resource for future generations, and must not be violated for economic interests. Economic development must not come at the expense of irreplaceable resources. Long term sustainability must come before short term economic interest.

There is widespread national support for keeping the Roadless Rule in place in the Tongass. The Tongass should NOT be exempted from the Roadless Rule.

Thank you.
