Comments: Closing trails is not the answer. Responsible people use these trails and areas to enjoy nature. It is our land the people of the US own this land. Moat of us try to pack out more trash than we pack in. Yes there are those irresponsible few that leave a mess and go off the trails however closing the trails only hurrts up that stick to trails. Laws only effect the law abiding those that dont follow laws still wont even if you limit for those that do.
