Comments: Comment - Alternative 1 - No Action

To Whom It May Concern,

I am writing to make public comment on the draft Environmental Impact Assessment regarding the Alaska Roadless Rule. I urge that the Alternative #1 - No Action - be taken.

The Tongass National Forest is the largest intact temperate rainforest in North America. Temperate rainforests sequester huge amounts of carbon dioxide, keeping the climate-warming gas out of the atmosphere.

We must not prioritize industry and profits over the environment, lest we destroy the only planet we have on which to create industry and profits. Cutting down old growth forests must be avoided!

Alternative 1 - No Action is the only environmentally conscious path forward.

Thank you,

[Position]
