Comments: Roadless Rule

Hello,

I am writing you today in regards to the Alaska Roadless Rule alternatives currently being proposed. I strongly support Alternative #1 to leave the original 2001 Roadless Rule in place.

In a time when we are on the verge of an existential crisis threatening our very existence on this planet, we need every last shrub, plant, and tree that we can muster. Corporate interests wringing some of the last untouched wilderness in our country for every last penny robs us all not only of the natural beauty of the landscape, but may very well rob our children of a future.

Please do not revoke any component of the 2001 Roadless Rule act.

Sincerely,

[Position]
