Comments: Comments to oppose modification to the Roadless Rule

Dear U.S. Forest Service,

The Roadless Rule helps protect old-growth habitat for birds like the Prince of Wales Spruce Grouse and Northern Goshawk, as well as for mammals like wolves and deer. Opening roadless areas to more logging and roads will fragment the forest and eliminate more of the big old trees that these animals rely on.

Yet, all of the action alternatives in the Draft Environmental Impact Statement allow more roadbuilding and logging across the Tongass National Forest. Logging roads and timber operations cost tens of millions of taxpayer dollars every year, with zero return on investment. Meanwhile, these destructive activities degrade the naturally sustainable wealth of salmon, wildlife watching, and tourism opportunities.

It is time to stop opening more and more acres to the timber industry and instead bolster protections to the old-growth forests and wild areas on the Tongass. I urge you to select the "No Action" Alternative (Alternative 1) and allow the Roadless Rule to remain intact on the Tongass National Forest.

Attention:

If the U.S. Forest Service Allows for Logging in The Tongass National Forest, it is Blatantly Ignoring Its Mission To Protect Our Public Lands, which is its sole mission.

As A Citizen and Veteran of The Armed Services, I am utterly appalled, and vehemently opposed, to any de-regulation of the 2001 Roadless Rule.

As I have stated above; It is the Solemn Duty of Every Government Employee, or Station, to disobey a lawful order, when it is in direct conflict of the government entity's mission and laws, that have precedence and that are in direct conflict with the Majority will of the American People !

Sincerely,

[Position]
