Title:

Comments: Alaska must be spared. We dont need to open up Alaska to timber. WTH legalization of hemp we can use hemp to offset our need for trees. Do not open up Alaska to timber production. The amazon was just devistates and we must preserve old growth forests forever. There is no need when we can maintain the forests in the lower 48 already open to timber. We need more tree planting programs to aid the earth and diminish the carbon in the atmosphere.
