Title:

Comments: \$30,000,000 loss per year for the Tongass National Forest? & Description want to open up even more acreage, which will increase losses for the USFS, does not seem like smart policy to me, hell, even my 16 & Description would be able to determine that isnt smart policy. I am against opening up the Tongass National Forest for that reason & Description would be able to determine that isnt smart policy. I am against opening up the Tongass National Forest for that reason & Description would be able to determine that isnt smart policy. I am against opening up the Tongass National Forest for that reason & Description would be able to determine that isnt smart policy. I am against opening up the Tongass National & Description would be able to determine that isnt smart policy. I am against opening up the Tongass National & Description would be substant policy. I am against opening up the Tongass National & Description would be substant policy. I am against opening up the Tongass Union would be smart policy.
