First name: Chad

Last name: Tokish

Organization: Self Employed

Title:

Comments: Im an avid outdoorsman and business owner. I know the value in development and progress, but the impact of this altering this habitat and subsequently the local economies that depend on it would be a big mistake. I support much of the projects of the Forest Service. This particular project in Alaska is not supported by an overwhelming majority of people across the nation. Please consider a more responsible alternative.
