First name: Mark

Last name: Choper

Organization:

Title:

Comments: Contrary to the beliefs of this administration, there is more to life than just money. Cant we leave just some areas untouched for our future generations to enjoy. Donald apparently doesnt care about leaving Baron anything but money, but if our environment is trashed, what can he spend it on! We have already opened up our national parks to mining and oil drilling, when does it stop Teddy Roosevelt is rolling over in his grave as we speak, and he was a Republican.
