First name: DANIEL

Last name: HIGGS

Organization:

Title:

Comments: Simple: Leave the Tongass alone. There is no good reason to exempt it from the Roadless Rule. None. Salmon fisheries and tourism bring in more tax dollars. This is a unique and critical environment. It is not worth destroying it for the greed of a few and political bonus points. This administration has no regard for the environment and the people that inhabit it including small business owners who are also opposed to this absurd idea. No matter what empty promises are made the forest and surrounds would be clear cut and devastated. Fisheries and tourism also decimated. Don't do it!
