Title:

Comments: I cannot believe that this is actually being considered. Is there no end to the greed and stupidity of people? To think that the employees of the forest service are actually in favor if doing this is mind boggling. Shame on thos agency amd the hypocritical employees who claim they are protecting our wild lands. I say NO to this proposal. Let me repeat for you clown, NO to logging in this pristine wilderness amd shame on you for promoting the idea. I have been to the tongass several times do not destroy it.
