First name: Lillian

Last name: Maniscalco

Organization:

Title:

Comments: This is a horrible idea. This is an old growth forest and needs to be protected from pollution and development. We need clean air and water to survive. Once it's gone it's gone. Our environment is fragile. Why to we need to constantly damage it? Climate change is real. This planet is the only one we have, there is no backup planet. The human race is in peril please don't hasten it's demise.
