Comments: We do not agree with the logging at all...we submit no logging of the whole area. These forests are needed on our planet, there are alternatives to destroying the environment for profit!! They cannot be replaced once gone and no one on this planet needs those forests, more than the animal and plant species that live there!! STOP THE CARNAGE OF OUR PLANET FOR GREED AND PROFITS...ITS SELFISH AND ENTITLED AND YOU HAVE NO RIGHT TO DO AS YOU PLEASE!!
