Last name: Silberschlag

Organization:

Title:

Comments: The best use of the remaining Tongass National Forest is still the no action alternative. This forest should remain roadless in perpetuity. The State of Alaska has already squandered its' allowed timber, harvested to the loss of \$600 million dollars to the taxpayers [inflation adjusted dollars]. The citizenry has no obligation to continue to bankroll this abuse of natural resources to fund political favors. Again, this forest should remain roadless in perpetuity.
