First name: Amber

Last name: Anonymous

Organization:

Title:

Comments: Not everything in the world is for the wealthy to obtain and make more money from it. Not everything in the world is meant to be trampled on by people. We are not the only things living on this earth, we can not keep destroying nature for a few peoples gain. Protecting this land has a greater benefit for both humans in the future and everything living there now. Keep it a protected, roadless national forest
