First name: Debra

Last name: Swanson

Organization: NA

Title:

Comments: Please leave this area untouched. Our earth is over populated and it is more important than ever to have areas left undeveloped. Apparently this area is the third largest rainforest. Trees exhale oxygen which we breathe. Please leave this spot alone. I don't know how it is in your neighborhood, but there are no old trees. This is the time to put limits on money makers and take a stand that certain places are off limits.
