Comments: Leave the Tongas alone! You are supposed to be administering Our public lands for Us. This is a money grab that is not in the best interests of Our nation, Our people and Our children. Those trees have been there for centuries. We are in a time when we do not know if we can reverse the damage humans have done to the environment. Do not be a part of what could be the final blow to Our earth. Leave it alone for another century, and if our descendants are alive, I am sure that they will thank you. Do not bow to the pressure! It is rape.
