Comments: I very much appreciate your efforts to consolidate public lands. In most cases, it is a win-win for everyone. However, in this case, I oppose the exchange of public land sections 4 and 8 (Township 2 N., Range 11 E.) for private sections 11, 13 and 21 (Township 3 N., Range 11 E.

If forfeited, these two sections of public land would be a significant loss to the public and I oppose trading them within the context of the current proposal.

However, please note that I do support the other proposed land swaps within the current South Crazy Mountain Land Exchange proposal as they consolidate public lands and improve public access.

Thank you.
