Title:

Comments: I oppose the land swap in the Craizies in the Gallatin National Forest. I oppose the exchange of public land sections 4 and 8 (Township 2 N., Range 11 E.) for private sections 11, 13 and 21 (Township 3 N., Range 11 E.). This is prime elk habitat in an area already facing unfair public land access issues. Unfortunately, the forest service has a poor history in the Craizies and I hope that they do NOT continue down the same path they have in the past and bend to the privet out of state millionaire landowners who wish to lock in the elk on their privet land for their million air buddies. I have little faith in our public land system because of the actions I see from the current leadership. Having leadership like the anti-public land BLM Director William Perry Pendley who has fought to take away public land for his entire career speaks volumes and public landowners hear you loud and clear. I hope you prove me wrong and improve access to the Craizies, not make it worse.
