Title:
Comments: I am a responsible camper and off roader. My family has enjoyed the area that you are considering closing. I urge you to choose alternate 1 and keep the area open. I have a disabled son with a heart condition and he cannot hike far enough to enjoy the back country. Many of our aging population face similar issues. Locking up land so it can only be enjoyed by backpackers that have extended time available is not fair. Please keep public lands open to the public.
