Comments: I can not support any road closures, if there is not enough money to maintain a road way then fine stop maintaining it but do not close the road way, I am a 5th generation Arizonan and have watched to many roads closed for no good reason other then some small group of luod mouths forcing their opinions on the rest of us. Just stop and understand that the road was developed for a reason and just because you don't want it doesn't mean you have the right to close it.
