Comments: Closing more public lands will only increase traffic to other open lands, which will then end up being closed and restricted more due to over use. The vast majority of use users, off roaders, hikers, backpackers, bicyclists, ect are not the issue. A select few cause issues, drivijv4off trails, illegal dumping, ect. Those are already violations, and it should be those individuals being sought after and punishes, not good law abiding citizens just trying to enjoy our home in a respectable manner.
