First name: kim

Last name: miles

Organization:

Title:

Comments: We have destroyed enough temperate rainforest and old growth in the lower 48 in the 2 centuries we have been here, in the act of settling the country. Now we know better, and now it benefits and enriches only the few wealthy. Tourism brings in much more in tax dollars, state and local revenue, and consideration of and joy in the environment and its beauty. National parks were created for the enjoyment of all, and the preservation of that area for the future generations, not for business concerns.
