Comments: Hello,

With your recent land swap proposal, in the Crazy Mountains I'm opposed. Currently there are already designated trails to the lakes in the proposed sections of 11 and 13 for recreational access. On our currently owned sections 4 and 8 there is already a offset corner for access of both for the public. Section 4 and 8 have better all around habitat for all wildlife. Even that the forest service would be getting more land out of the deal, I still feel it's not in the best interest of me a public land owner.
