First name: Kevin

Last name: Biegler

Organization:

Title:

Comments: I grew up in SW Montana, went to college there. Over the past 6 decades have seen many changes in the state. The Crazies are an area we went to as kids and I have as well as an adult within the past 5 years. This exchange represents a bad deal for future generations and those wishing to use the public lands in the Crazies. It represents a one sided deal meant to benefit a select party and not the public. The units being exchanged are not representative of equitable or similar types of habitat.
