Comments: Good morning!

I stand with MT BHA in opposing the trade of public sections 4 and 8 for private sections 11, 13 and 21.

I agree that 4 and 8 are amazing pieces of public land that should be kept public, and that access to both sections is easily available.

I encourage you to leave sections 4 and 8 public and NOT to include them as part of the South Crazy Land Exchange proposal.

There are acts, which once done cannot be undone. This is one of those acts - taking these prime sections out of public hands and eliminating public access would be the wrong thing to do for the long term public good.

Thank you for your time,

Jenn Mayrand
