First name: Edith

Last name: Stephens

Organization:

Title:

Comments: Do not open this or any acreage up to logging! Please stop destroying our natural environment. We need trees and the benefits they provide more than we need to continue lining the pockets of robber barons and industrialists. Logging will destroy the natural habitats of thousands of animals, driving them further into cities and suburban areas, where the people do not welcome them and they cannot survive. Don't forget that we need trees in order to have fresh oxygen to breathe. NO MORE LOGGING.
