Comments: Keep your corrupt Republican hands off of our national forests and especially the Tongass. You scumbags would sell your mother for a dollar and now with Trump as your leader you think you can get away with criminal behavior. I promise you that a day of reckoning is coming and your crimes WILL BE PUNISHED with long jail terms. So, think long and hard before you give our virgin forests away to your lobbyist friends and campaign donors. We are watching and taking names.
