First name: Don

Last name: Drury

Organization:

Title:

Comments: Do not rescind the roadless rule in the Tongass National Forest.

It will cause unnecessary and irreparable harm to the fishing and tourism industry. Alaska needs permanent decent jobs, and logging only creates short term, out of state work at the expenses of the Fishery and Tourism industries.

Make a long term plan for Alaska's economy, instead of selling it out for short term gain.

We know this is another example of the Republican party's expropriation of national resources for the benefit of their corporate benefactors. History will not look kindly upon the self-dealing few who raided our great nations inheritance. We know what you are doing. We know you are not faithfully executing your oath to the nation.
