First name: Alexander

Last name: Boulton McKeehan

Organization: Stanford University

Title:

Comments: Dont do it. Its not worth it. We have enough, even if it doesnt seem like it sometimes. Please. I want you to lean back in your chair right now. Take a deep breath. Close your eyes. Imagine what it must be like to be in that forest right now, instead of sitting in your desk. The sound of birds. The cool, fresh, running water. The beautiful smell of the pines. The universe has put you, out of all people, in the singular place to decide its fate. I know you can do whats right.
