Comments: Please dont open up the Tongass to logging. Its economically impairing to our system. Not to mention the thousands of fisheries jobs that will be destroyed. Just dont do this; its really, really, really dumb. We have ruined most of the worlds ecosystems from our greed and ignorance. Our planet is dying and you want to continue killing it? Your names will be remembered not for the good you think this will bring but for the destruction of one of Americas greatest forests. The choice is yours. Make the right decision and leave the forest alone.
