Title:

Comments: I'm commenting to request that you select the "no action" alternative and keep the 2001 protections in place.

The current management is working for a sustainable Tongass NF and for SE AK communities.

The current management strategy of using the 2001 Roadless Rule is the best alternative for sustainable commercial and subsistence fisheries, recreation, and the tourism industry.

I urge you not to consider these comments and select the no action alternative.

Thank you for your time.
