Comments: I appreciate the effort by the forest service to consolidate and increase access to public land, and I support most of South Crazy Mountains Land Exchange #56687 I do not support the Crazy Mountain Ranch Component. I do not believe that the high elevation, low vegetation land that would be added to the forest Service land is worth trading the lower elevation, forested land. Also, with the addition of the Rock Creek Transfer, all of the forest service land in section 4 and 8 are accessible through public land.

I ask that you remove the Crazy Mountain Ranch component from this land Transfer
