Comments: Hi,

Thank you for working with private landowners to try and consolidate land in the Crazy Mountains.

However, I oppose the exchange of public land sections 4 and 8 (Township 2 N., Range 11 E.) for private sections 11, 13 and 21 (Township 3 N., Range 11 E.) These are already publicly accessible via Forest Service Trails 270 and 272 and provide many great recreational opportunities for the public.

I am in favor and support the other proposed land swaps within the current South Crazy Mountain Land Exchange proposal as they consolidate public lands and improve public access.

Thank you.

Troy
