Comments: I am strongly in favor of promoting public Access to public lands in the Crazy Mountains. However, I disagree with portions of the current proposal - specifically the exchange of public land sections 4 and 8 (Township 2 N., Range 11 E.) for private sections 11, 13 and 21 (Township 3 N., Range 11 E.). We need to keep quality public lands in public hands. It can be such a rarity to have such diverse landscapes easily accessible to the public. We need to preserve these opportunities and not close them off to where only a select few may ever get to enjoy their offerings.
