Comments: I am very much in favor of renewing the permit for the Arizona Church of Christ Bible CAmp. Their goals to introduce urban young people to nature in the forest is a wonderful goal. My children and grandchildren have grown up taking yearly trips to our extended family cabin. They have learned much about nature and the forest and have found a closeness to God because of these experiences. In a day when so many children are growing up in big urban cities, anything we can do to help them witness and come close to some of the most beautiful places in Arizona, we need to encourage. There will be those who say that we have to protect the endangered animals and get rid of humans. People who have been taught to appreciate nature will not harm endangered species. They are respectful. This is what experiences in nature teach. It is people with no experience in nature who are ignorant and destructive. I am sure the Bible Camp teaches such appreciation. I completely support the reissuance of the permit for the Bible Camp.
