Comments: Dear USFS:

Please provide an alternative to trading off sections 4 & 8 in the Crazy Mountain Range, which includes habitat surrounding Rock Creek and the Middle Fork of Rock Creek. These are very valuable fish, wildlife and human habitats. This is likely some of the most productive habitat in public ownership in the Crazy Mountain landscape. There must be a better way to secure the lands near the high mountain lakes. Please do not trade off sections 4 & 8.

Thank you,
