Comments: I oppose the exchange of public land sections 4 and 8 (Township 2 N., Range 11 E.) for private sections 11, 13 and 21 (Township 3 N., Range 11 E.). Here are some specific reasons why:

Sections 4 and 8 described above offer public access to high-quality mid-elevation and lowland wildlife habitat, a rarity in the greater Crazy Mountain landscape.

These sections contain portions of Rock Creek and offer quality hunting, fishing, hiking, bird watching, camping, etc.

These sections are already legally and easily accessible for public walk-in access through Forest Service Trails 270 and 272. They are not landlocked nor inaccessible, therefore making them unattractive for trade.

These sections are the epitome of quality public land and wildlife habitat and would be a major loss for the public if traded for sections 11, 13 and 21, which do not hold anywhere near the same value of quality habitat and ease of public access.

I do support the other proposed land swaps within the current South Crazy Mountain Land Exchange proposal as they consolidate public lands and improve public access.

Bottom Line...I agree with the Montana Chapter of BHA that wrote the following letter.

https://www.backcountryhunters.org/montana_bha_comments_on_proposed_land_exchange_in_crazy_mountains

Please take this letter, and comments from non-residents like me from across the country, into consideration when making this critical decision. Thanks,

Jared Politz
